Dr Nikolas Brunstamp

Specialist lawyer for construction and architects' law

Nicolas advises on issues related to private construction law with a special focus on offshore wind farm projects. His advice covers all phases of the realisation of such projects, from contract negotiation, manufacturing and installation right through to the operating phase. If disputes cannot be amicably resolved, Nicolas represents the firm's clients in adjudication, arbitration and ordinary court proceedings.

What others say

„Recommended lawyer for construction law“

Legal 500 Germany 2023

Recent work

- English-language arbitration proceedings (DIS) concerning the jacket foundation of an offshore wind farm in the North Sea
- Representing the client in seven English-language DAB proceedings (DISGO) as well as in one arbitration (DIS) concerning the installation of an offshore wind farm in the North Sea
- Contract negotiations for a contractor regarding a contract for the construction of an offshore wind farm (all parts of the farm except the WEA)
- Providing ongoing advice to an offshore wind farm during the construction of all parts of the farm
- Supplementary negotiations regarding a WTG supply contract for an offshore wind farm
- Advising the owner of a wind farm in the North Sea regarding defects that occurred during the warranty period
- Advising on the construction and commissioning of various biogas plants
- Various proceedings concerning remuneration and defects before the national courts
